

	Highly Enantioselective Iridium-Catalyzed Hydrogenation of Heteroaromatic Compounds, Quinolines. <i>J. Am. Chem. Soc.</i> Wen-Bo Wang, Sheng-Mei Lu, Peng-Yu Yang, Xiu-Wen Han, Yong-Gui Zhou.*	12.1	2003 , 125, 10536-10537.	2003.8.9						
	Asymmetric Hydrogenation of Heteroaromatic Compounds. <i>Acc. Chem. Res.</i> Yong-Gui Zhou.*	22.3	2007 , 40, 1357-1366	2007.9.27						
	Asymmetric Hydrogenation of Quinoline and Isoquinolines Activated by Chloroformates. <i>Angew. Chem. Int. Ed.</i> Sheng-Mei Lu, You-Qing Wang, Xiu-Wen Han, Yong-Gui Zhou.*	11.3	2006 , 45, 2260-2263.	2006.3.3						
	Pd-Catalyzed Asymmetric Hydrogenation of Unprotected Indoles Activated by Brønsted Acids. <i>J. Am. Chem. Soc.</i> Duo-Sheng Wang, Qing-An Chen, Wei Li, Chang-Bin Yu, Yong-Gui Zhou,* Xumu Zhang.*	12.1	2010 , 132, 8909-8911	2010.6.16						
	Iridium-Catalyzed Asymmetric Hydrogenation of Pyridinium Salts.	11.3	2012 , 51, 10181-10184	2012.9.11						

	<i>Angew. Chem. Int. Ed.</i> Zhi-Shi Ye, Mu-Wang Chen, Qing-An Chen, Lei Shi, Ying Duan, Yong-Gui Zhou.*								
	Convergent Asymmetric Disproportionation Reactions: Metal/Brønsted Acid Relay Catalysis for Enantioselective Reduction of Quinoxalines. <i>J. Am. Chem. Soc.</i> Qing-An Chen, Duo-Sheng Wang, Yong-Gui Zhou,* Ying Duan, Hong-Jun Fan,* Yan Yang, Zhang Zhang.	12.1	2011 , 133, 6126-6129	2011.4.5					
	Biomimetic Asymmetric Hydrogenation: <i>In Situ</i> Regenerable Hantzsch Esters for Asymmetric Hydrogenation of Benzoxazinones. <i>J. Am. Chem. Soc.</i> Qing-An Chen, Mu-Wang Chen, Chang-Bin Yu, Lei Shi, Duo-Sheng Wang, Yan Yang, Yong-Gui Zhou.*	12.1	2011 , 133, 16432-16435	2011.9.20					
	Dihydrophenanthridine: A New and Easily Regenerable NAD(P)H Model for Biomimetic Asymmetric Hydrogenation. <i>J. Am. Chem. Soc.</i> Qing-An Chen, Kai Gao, Ying Duan, Zhi-Shi Ye, Lei Shi, Yan Yang, Yong-Gui Zhou.*	12.1	2012 , 134, 2442-2448	2012.1.3
